## Lunar Nodes Interpretation

### Lunar Nodes in Signs :

*North Node in Pisces - South Node in Virgo*

You will succeed with quick choices and commitment. You have to be self-confident in order to accomplish disinterested spiritual service.

The principal sources of your failure are narrow-mindedness, distrust and the fact that sometimes you are too critical .

### Lunar Nodes in Houses :

*North Node in VIII - South Node in II*

You tend to live your life with voracity. You are jealous, possessive and you suffer from bulimia in your pursuit of things.

You have to take distance in regard to materialism, lust of things and people. You have to learn to detach yourself, find joy in search (spiritual, esoteric, scientific).

*(Usually the North Node indicates where the subject can success, and the South Node where he can fail.)*
